Ms. Manners

Hey Ms. Manners,

I lost my skins because of the ridiculously deep powder! It's a weekend trip, so there's still a lot of uphill left to do. Is there any way I can MacGuyver something together that'll work until I get off the mountain?

Signed,

MacGuyver

Dear MacGuyver,

You most certainly can. There are multiple options:

- * Tie branches to the bottom of your skis using Voile straps
- * Acquire yourself some glacier skis; especially easy in the spring. Basically, ski through snow covered in pine needles and get your bases covered with resin to provide extra grip.
- * Sigh and boot pack/swim through the deep snow.

Good luck! And remember, always keep smiling.
